User's Home page:

Select the Verification Service required:

Select the Document to be verified:

Click "Proceed"

Fill details, Upload the Documents and "Submit" to proceed Payment gateway:
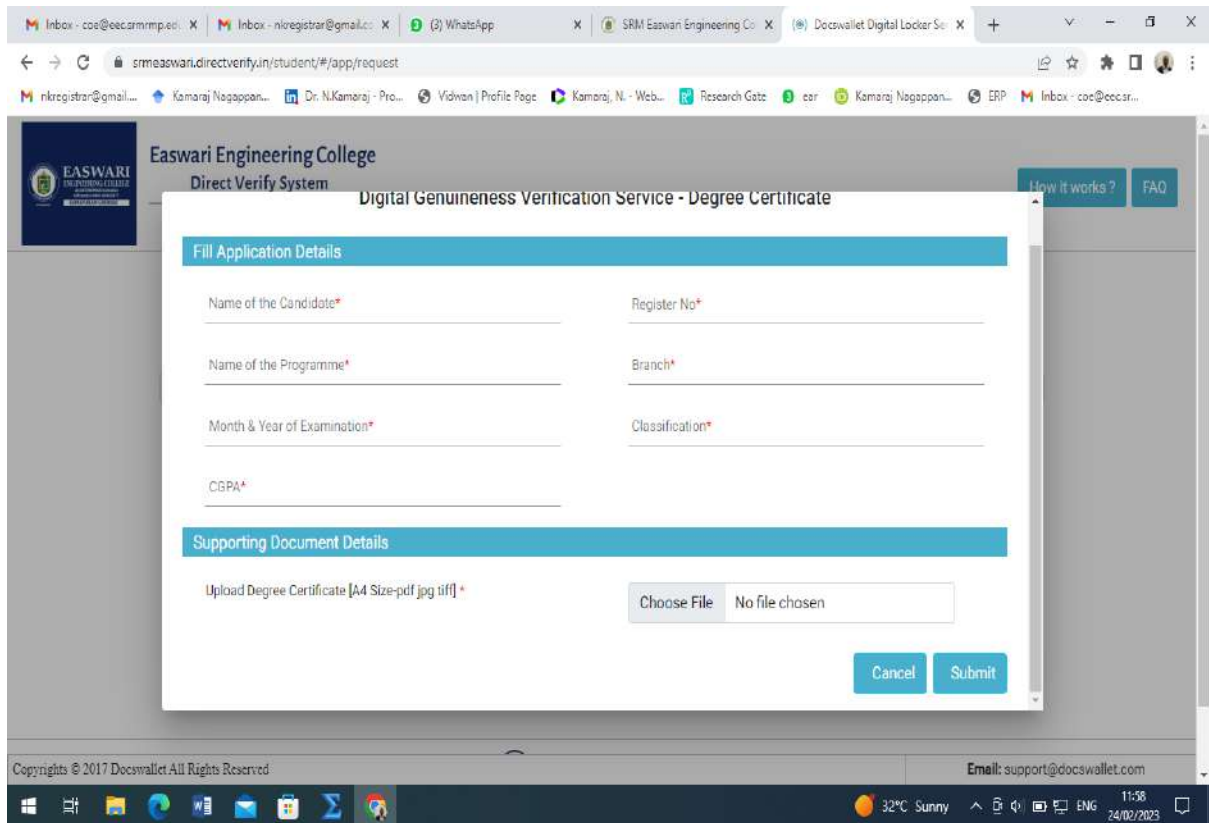

How Digital Verification & WES works?

Verification process flow:
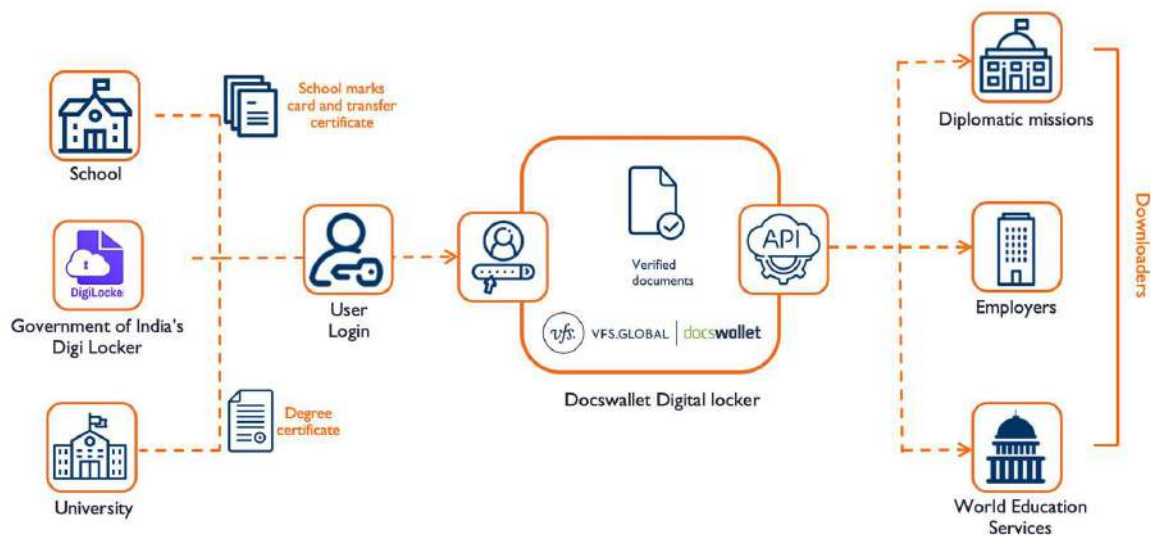

step-by-step process:
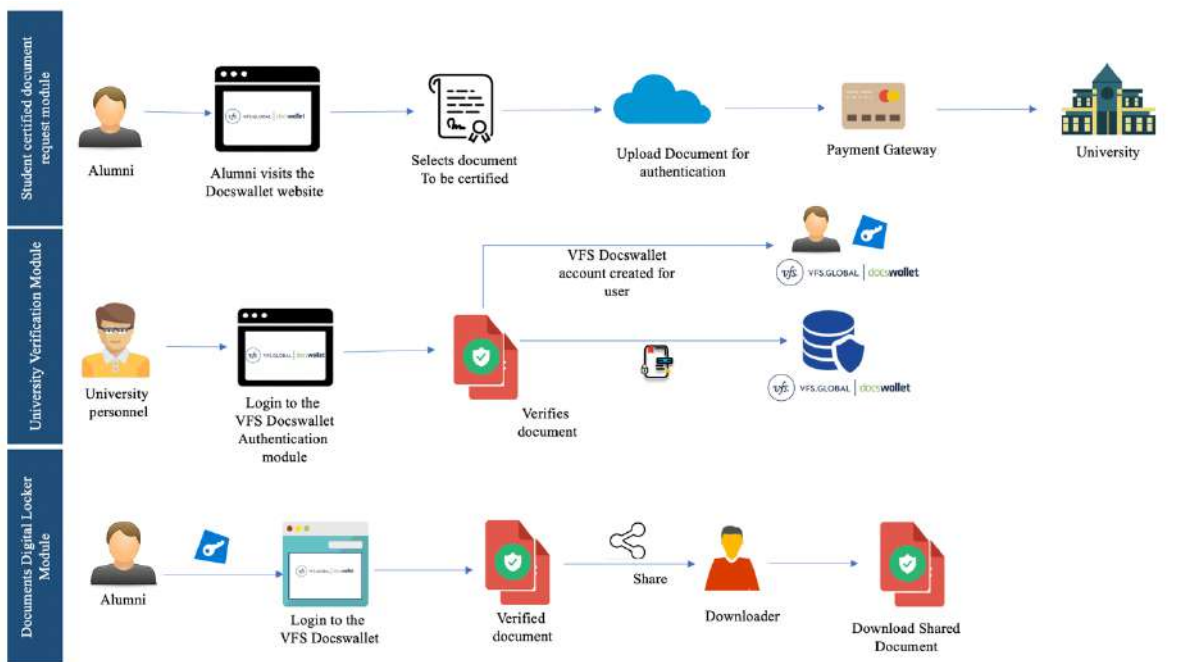

Step 1: The user selects the service i.e. transcripts, document verification, attestation service etc. to which verification request is to be routed and uploads the digital copy of the certificate or Grade sheets.

Step 2: The user will be guided to a payment gateway after the upload to complete the payment prescribed as verifier fee per verification.

Step 3: COE office personnel are intimated of the verification request by email.

Step 4: COE office personnel have been provided a secure access to login and check the verification request.

Step 5: Once the document is downloaded after login, the concerned personnel at the COE office checks the document with their database and respond on the genuineness with a click of a button. This process can have an additional check by DCOE & COE before the verification result is sent to the requesting party.

On completion of the above steps, the verified documents are sent to the user back with the authenticated verified certificate & badges from the COE office thro online as shown below:

Certificate and badges

A digital certificate and a digital badge will be provided as part of the process, which contains the information of the date and time, issuer and results of the verification. VFS Docswallet digital seal will be embedded on the document. More than one seal can also be embedded on the document. The standard digital seal usually has the following information:

- Verifier information
- Date and time stamp
- The IP information
- The Official email ID
- The Official phone number of the particular department

The sample digital seal is shown in the image below:

World Education Services:

Furthermore, we are also delighted to inform that the World Education Services (WES) has confirmed that VFS Docswallet as the Global Digital Implementation Partner. WES is a non-profit organization dedicated to helping international students and professionals achieve their educational and professional goals in the United States and Canada. The process for sharing documents digitally to WES is shown below:
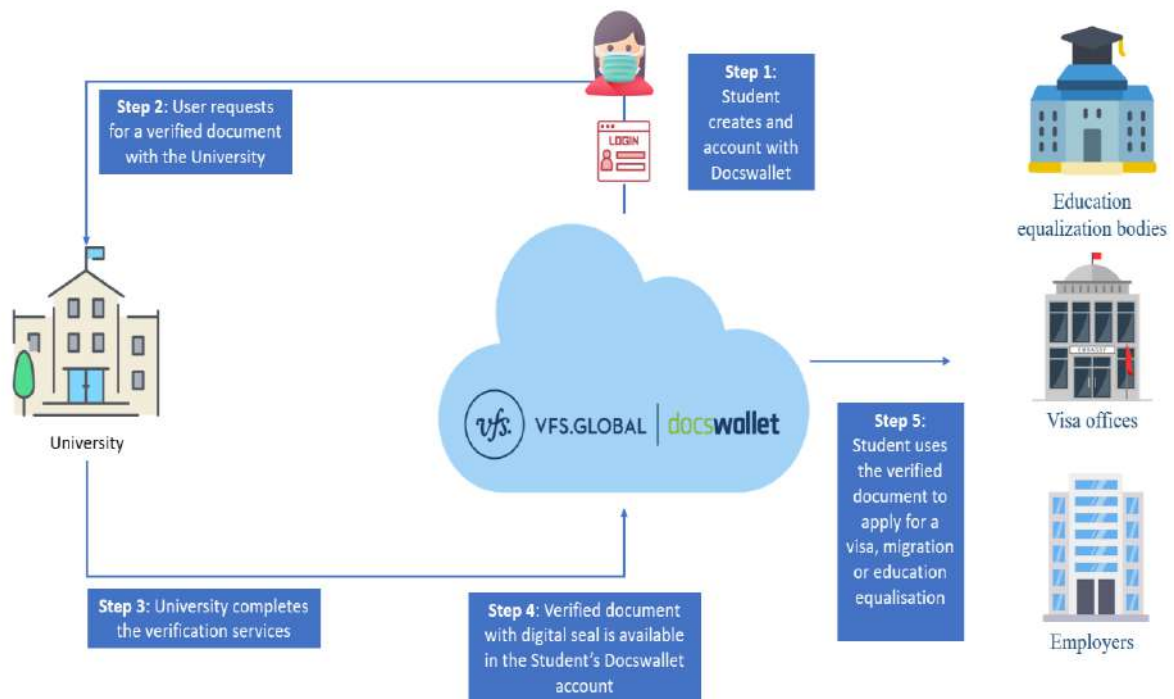

The step-by-step to apply for visa, migration or credential evaluation digitally is as follows:

Step 1   The student request for a digital transcripts on the VFS Docswallet application. Upon receiving the required information and documents the information is transmitted to the College transcript application.

Step 2   The document and information will be available in a similar format as required by the college. If required by The University, VFS Docswallet can provide and quality control check to ensure the documents are in order before the documents are pushed to the College via an API.

Step 3   After the request has reached the College's system. The personnel at COE office can process the academic transcripts, which subsequently gets pushed to the student's digital locker via the API. The student will not be able to make any amends to the document as the same encrypted.

Step 4   Upon receiving the document in the student's VFS Docswallet account, the student is intimated via email that his or her academic transcript processing is complete. The student can now login to his or her account and then select the entity to which they can apply digitally in the VFS Docswallet application. The student can update his or her document reference and link it to the digital application.

Step 5   The entity selected by the student can now download the document with the verification information for processing the student's application.
