BRIEF REPORT:

The Department of Electronics and Communication Engineering has arranged Industrial Visit for I year PG students - ME(Communication Systems) to “**Society for Applied Microwave Electronics Engineering and Research (SAMEER), Taramani, Chennai** on **27.04.2022**. The department faculty members also have visited the esteemed organization with PG students. Mr. Shri Gopinath Karna, Scientist D, DSP Division, explained the Launch Control unit for Rocket and Missile and Mr. G. Mahesh, Scientist E, EMI/EMC Division, explained about the anechoic chamber which is used to provide a shielded environment for radio frequency (RF) and microwaves. He has shown the various EMC testing set up for automotive and electronic devices. This visit was very useful and informative for both students and faculty members to enhance the academic knowledge in the Field of RF Communication, Distributed Data acquisition system, Antenna and Electromagnetic Interference (EMI) & Electromagnetic Compatibility (EMC).
