

LAB INFRASTRUCTURE

Process Control Laboratory

- Level Control Station
- Flow Control Station
- Pressure Control Station
- Temperature Control Station
- Cascade Control
- Control Valves for Characteristics Study
- Five Tank System (AICTE - MODROBS)
- Universal Process Station
- Spherical Tank Level Control
- Conical tank Level Control

LAB INFRASTRUCTURE

Industrial Instrumentation Laboratory

- Temperature Measurement
- Viscosity Measurement
- pH Measurement
- Vacuum Pressure Measurement
- Viscosity Measurement
- Conductivity Measurement
- Torque Measurement
- Dead Weight Tester
- ECG Analyser

Measurements and Transducers Laboratory

- Thermocouple, RTD, Thermistor
- LVDT, Potentiometers
- Bourdon Tube, Strain Gauge, Load Cell
- I/P and P/I Converters
- Instrumentation Amplifiers
- DC and AC Bridges
