1.	Design and Development of communicating device as a teaching aid for hard hearing community PI: Dr.G.S.Anandha Mala Co-PI: Dr.K.M.Anand kumar Co=PI: Mr.Lokesh, Witty	DST- DDP	16.48 Lakhs	2019 - 2021	Completed

This project developed a communication device as a teaching aid for the hard hearing people. Hence the device has been developed to help hard hearing persons to communicate easily with hearing community and vice versa. The product developed, eradicates the existing difficulty, as it enables two-way communication i.e, converts signs to speech and speech to gestures. The device can be used as a teaching aid for the hard hearing.

During impact assessment study progress of device development program by Intellectual Property Management Cell, Jawaharlal Nehru University on 14.03.2022
