# EASWARI ENGINEERING COLLEGE

## AUTONOMOUS

### COMPUTER SCIENCE AND ENGINEERING

#### VISION

To impart quality education in the field of computer science and engineering and to provide graduates with technical skills enabling them to contribute to the society by solving real world problems and to become a centre of excellence for advanced computing.

#### MISSION

M1. To provide strong foundation in computer science and engineering and in problem solving techniques to become successful professionals in the field of computing and prepare them for higher education.

**M2. To provide students with latest skills in the field of computer science and engineering and to realize the importance of life-long learning.**

M3. To produce graduates with the ability to participate in interdisciplinary collaborations and apply recent computing tools and technologies in new domains and industry.

**M4. To produce graduates capable of ethically and responsibly approaching and committing themselves to the social impact of computing.**

M5. To prepare students to communicate effectively and exhibit leadership qualities to work on diverse project teams.

**M6. To provide research environment for students and faculty to undertake inter-disciplinary research in emerging areas.**

## PROGRAMME EDUCATIONAL OBJECTIVES

### PEO 1

Graduates will possess the ability to think logically and have capacity to understand technical problems and to design optimal solutions for a successful career in industry, academia and research.

### PEO 2

Graduates will have foundation in mathematical, scientific and computer science and engineering fundamentals necessary to formulate, analyze and solve engineering problems.

### PEO 3

Graduates will have the potential to apply their expertise and current technologies across multiple disciplines to solve real world challenges and research issues.

### PEO 4

Graduates will have the ability to work as a team and will be able to promote the design and implementation of products and services with an understanding of its impact on economical, environmental, ethical, and societal considerations through their strong interpersonal skills, leadership quality and entrepreneurial skills.

### PEO 5

Graduates will possess an urge to learn continuously and to be responsive to the demands of the progressive industrial world by carrying out researches in frontier areas of computer science and engineering.

## PROGRAMME SPECIFIC OUTCOMES

### PSO 1

Analyze, design and develop computing solutions by applying foundational concepts of computer science and engineering.

### PSO 2

Apply software engineering principles and practices for developing quality software for scientific and business applications.

### PSO 3

Adapt to emerging information and communication technologies (ICT) to innovate ideas and solutions to existing/ novel problems.

## PROGRAMME OUTCOMES

**Engineering knowledge:** Apply the knowledge of mathematics, science, engineering fundamentals, and an engineering specialization to the solution of complex engineering problems.

**Problem analysis:** Identify, formulate, research literature, and analyze complex engineering problems reaching substantiated conclusions using first principles of mathematics, natural sciences, and engineering sciences.

**Design/development of solutions:** Design solutions for complex engineering problems and design system components or processes that meet the specified needs with appropriate consideration for the public health and safety, and the cultural, societal, and environmental considerations.

**Conduct investigations of complex problems:** Use research-based knowledge and research methods including design of experiments, analysis and interpretation of data, and synthesis of the information to provide valid conclusions.

**Modern tool usage:** Create, select, and apply appropriate techniques, resources, and modern engineering and IT tools including prediction and modeling to complex engineering activities with an understanding of the limitations.

**The engineer and society:** Apply reasoning informed by the contextual knowledge to assess societal, health, safety, legal and cultural issues and the consequent responsibilities relevant to the professional engineering practice.

**Environment and sustainability:** Understand the impact of the professional engineering solutions in societal and environmental contexts, and demonstrate the knowledge of, and need for sustainable development.

**Ethics:** Apply ethical principles and commit to professional ethics and responsibilities and norms of the engineering practice. Individual and team work: Function effectively as an individual, and as a member or leader in diverse teams, and in multidisciplinary settings.

**Communication:** Communicate effectively on complex engineering activities with the engineering community and with society at large, such as, being able to comprehend and write effective reports and design documentation, make effective presentations, and give and receive clear instructions.

**Project management and finance:** Demonstrate knowledge and understanding of the engineering and management principles and apply these to one's own work, as a member and leader in a team, to manage projects and in multidisciplinary environments.

**Life-long learning:** Recognize the need for, and have the preparation and ability to engage in independent and life-long learning in the broadest context of technological change.

# STUDENTS ACHIEVEMENTS AND AWARDS

## IDEATHON

Our Third year CSE A students Ms. Gayathri and Ms. Harini participated in Ideathon event conducted by Jeppiar University. They are awarded with participation certificate.

**"IT IS DURING OUR DARKEST MOMENTS THAT WE MUST FOCUS TO SEE THE LIGHT."  
-ARISTOTLE**

# DEPARTMENT ACTIVITIES

DEPARTMENT OF COMPUTER SCIENCE AND ENGINEERING

## GUEST LECTURE

### INDUSTRY TRENDS IN MACHINE LEARNING

For III years CSE Students

13.10.2022 | 10.00 AM - 12.30 PM

**Mr. P.BALAJEE**

Software Engineer  
Global Techno Solutions  
Chennai.

#### Convenor

Dr. G. S. Anandha Mala  
Professor & Head - CSE

#### Coordinators

Dr. S. Ahamed Ali, Assistant Professor/CSE  
Mr.Y. Justin Dhas, Assistant Professor/CSE  
Mr.K. Shankar, Assistant Professor/CSE

## GUEST LECTURE

Department of Computer Science and Engineering Organises Guest Lecture on "INDUSTRY TRENDS IN MACHINE LEARNING" for III year CSE students on 13.10.2022

Spokesperson:  
Mr. P.BALAJEE  
Software Engineer,  
Global Techno Solutions,  
Chennai.

## CORE TEACHING

Department of Computer Science and Engineering Organises Core Teaching on "Object Oriented Analysis and Design" Title: Principles of Software Testing in IT world for III Year CSE students on 31.10.2022

Spokesperson:  
Mr. Karthickeyan S  
Automation Architect  
Verizon Data Services  
Chennai.

# EXTRA CURRICULAR ACTIVITIES

## THULIR

The Rotaract Club of SRM Easwari Engineering College organized **THULIR** in collaboration with Vivekanandha Vidyalaya School.

Many students from our CSE department took part in this event.

"LOVE THE TREES UNTIL THEIR LEAVES FALL OFF, THEN ENCOURAGE THEM TO TRY AGAIN NEXT YEAR."

— CHAD SUGG
